NATIONAL GEOGRAPHIC **GEOSTORIES**

A NEW KIND OF STORYTELLING

Developed for the National Geographic Society, GeoStories is a publishing platform for organizations, journalists, and marketers to embed place-based multimedia stories in their websites and apps.

Organizations using Geostories include REI, US Fish and Wildlife Service, National Parks and Conservation Association and the World Bank.

WANDERING **APP**

NOT ALL WHO WANDER ARE LOST

Easily create, publish, and promote your walking tour, birding trail, art walk, or any number of other Wandering experiences. Help your visitors get off the beaten path and inspire them to immerse themselves and spend more time in your communities and landscapes. When you engage visitors to spend more time and explore more places, they will spend more money in your communities.

INTRODUCING **OLD TOWN**

ADD *WHERE* TO YOUR DIGITAL EXPERIENCE

We are experts at developing solutions that involve interactive mapping and deploying community-driven content strategies that create unique opportunities to customize the user experience. Even with extensive global experience, Old Town is not an “everything-to-everybody agency.” We proactively seek work that allows us to add significant value to the companies, organizations and agencies we work with.
